How PRIZE-FIGHTS ARE GOT UP .-- An American writes to the Clipper, detailing how prize-fights are got up in and about London. The process is so similar to the practice here, that we make an extract from his communication:

"In every sporting-house here they have e room up stairs where the boys can put the mittens on. They have sparring two or three evenings during the week .- To these there is no charge, unless it be for the 'benefit of young so and so;' then, if the beneficiare is not of some note, the tickets are seldom above a shilling, unless you take a reserved seat, but such reserved seats I never saw. On occasions when there are no benefits, the company is not the most choice-at least they don't look like 'dry-goods clerks.' I said there was no charge except at benefits, but no one should attend either without a few shillings in his pockets. When two boxers get through basting each other, they immediately leave the ring, and carry the 'hat' round with 'Please, sir, help a poor fellow along.' This from eight or ten couples, would soon relieve your pockets of a couple of dollars; but you must put up with it, as no American can withstand them-for like Uriah Heep, they are 'so humble' and polite. Many of those who have been in the ring do this. The exceptions are among the higher THAN ANY OTHER MACHINE. order of pugilists.

My first visit was to Sayer's exhibition, where such people as Job Coblev, Gillam and Hicks appeared, and, with very few exceptions, all who sparred carried the hat are working men, but a great part of them are 'settlers,' who get their living by carrying round the aforesaid 'hat'. If any of them prove to be game and tidy with his 'hands' he is likely to be backed for a mill with hea he may be called Jem Ward's 'big' un,' or Harry Broome's 'novice,' or somebody's pe.. This latter appellation is more fancied, understand, when the pet is the prolege of some well known bruiser. The 'pet,' or 'big 'en,' if he win the battle, may get a 'light stake' from his backer or backers , and for this he is gratified, as he is well fed while creining, and an especial favorite at the house until he loses a battle. This is pretty near the style, I think, in which prize-fight-228 cre manufactured in England. They are not quite so independent as our boys, he climmering hope that one day or other hey will arrive at the top of the ladder, when they will have a house of their own,' and an opportunity to do to others as they have been done by."

L DAY DAWN VIEW OF A RAILROAD CAR. -Night passengers will appreciate the folcar et day-break. It is from the Chicago "Long before we hear the roar of wheels,

we see the glimmer of a glowing light .-Frighter and broader it opens, like the Cyclopean unwinking eye it is, the head light of the train. Then the steady jar, then the mingled ciank of a thousand shaken chains for the convenience and social gratification of the and the cars are nere. 'All aboard,' and travelling public, has been omitted in its plan, or 'all right,' iollow each other in quick succession, and we are breathing the close and neavy air of a crowded dormitory. The car lamps have gone out disgusted, the little wakefulness of the sleepers has subsided, and the dim snoring outline of cleaks and shawls, and frightened looking heads, flocked here and there like a troubled sea, with white, compose the landscape; while over all, like pendulums, swing plethoric carpet bags slowly to and fro, and little satchels, brisk as mantle clocks, and bonnets made of nothing, dance up and down like blossoms in a rain; all timed to the motion of the

"But the dim gray turns to an old-eyed white, and the breathing bundles begin to stir; out of an egg-shaped package is hatched a woman, with locks disheverled, like Venus from the sea. A three or two, and a rougher form emerges from cloak and shawl turns out a man, bearded like a pard. A pair of boots thrust out like bowsprits, goes out of sight, as the owner comes in view. One is soothing an irritated hat with gentle touches of his elbow: another pulling at his wilted collar. Disordered tresses are smoothed with hasty touches of the hand, and crumpled sleeves persuaded into shape .-One lady has learned her lesson from Grimalkin, and makes her toilet precisely like a

"The cold, clear light of early morning is always trying to human beauty; there are no tints to be borrowed, no softening shapes to be worn; a plain, cold stare, that looks one out of countenance. But in a railroad train the ordeal is appalling. If a fact ever looks faded it is then; if the hair has any gray in it, it is sure to show: wrinkles are read, like a sign-board, afar off. If there be discontent in the heart, it it comes into the mouth, and everybody looks like people after a masquerade, or Richard efter he became 'himself again.

THE OLDEST STAGE DRIVER IN AMERICA. The Newburyport Herald, in speaking of the Eastern Stage Company, which was formed in the first part of this century, says: -"Amongst the first drivers was Major Sarauel Shaw, the 'white hat' coachman, who is still seen early and late on his coachbox, at the arrival of every train of ears at our depots, and who is undoubtedly the olmore than sixty years of service. He is the site the Post Office, Washington city. Years, reonly survivor among the original employers | spectfully, and employed of the company. Not one of the proprietors along the whole route now lives, and not one of the drivers remain with oniet sleep of the grave, leaving the Major CLOTHING STOKE, Washington city. the oldest of 'the stage drivers.'

SOUTHERN MANUFACTURE.

KIRBY'S

Reaping and Mowing Machine. FOR 1860.

AMERICAN HARVESTER. THE SUPERIORITY OF KIRBY'S AMER-ICAN HARVESTER, over all others, will become more obvious by looking at its several

superior points in detail, and then considering that all these separate excellencies are combined in one MACHINE, in the most simple and effective manner. In some of these excellencies it is entirely unequalled, and in none of them is it surpassed. While other MACHINES may equal it in some of its desirable qualities, we can safely say there is not another MACHINE in the world which COMBINES ALL THE EXCELLEN-CIES that are found combined in KIRBY'S AMERICAN HARVESTER.

We would call the attention of Farmers to the 1. That-This is the most perfect Combined Mower and Reaper in use; better than any single

mower as a mower, and better than any single 2. That-It is the strongest and the lightest; being made entirely of Iron, except pole, seat and platform. The finger-bar is of wrought angle iron, of great strength and lightness.

3 That-It has a Revolving Track-Clearer, which is the only track-clearer that will thoroughly separate the cut from the uncut grass, and without leaving the cut grass in bunches. 1 That-IT REQUIRES ONE-THIRD LESS DRAFT

5 That-No pressure is made upon the hor-ES' NECKS, AND NO SIDE DRAFT. 6. That-Its ability to work on rough ground not equalled by any machine yet produced .--The finger-bar working up and down, indepenround. It must be here understood that of | go through deep furrows and ditches, among stones those who spar at these exhibitions, some and bogs, over knolls and gopher hills, where no other machine could follow it. It will work from 2 to 18 inches high.

7. That-It can be used in mowing either with or without the reel. S. That-In both mowing and reaping, the po-

sitions of the driver and raker are the most conve-30 me one by the proprietor of the house, and nient and easy, enabling them to do their labor with but little exertion. 9 That-While the machine is in motion the driver can, by means of a lever, throw the cutters out and into gear, and by another lever he can raise and lower the finger-bar to pass obstructions,

or move from field to field. 10. That-It is easily managed, marvelously simple, well built, compact, not liable to get out of order, made of the best materials, Babbet, metal boxes, and is furnished with double trees, neck voke and extras complete.

We would request all those who are in want of a REAPER and MOWER, to send for a Circular descriptive of the MACHINE, &c., before making other arrangements. The MACHINES are in all ore they? But then they look forward to cases warranted to give satisfaction, or no sale .-Manufactured by D. M. OSBORNE & Co., 145, Pratt street, Baltimore. Address KNOX & BRO., General Agents.

PERUVIAN GUANO

GUANOS.

OF OUR OWN DIRECT IMPORTATION

FROM THE

Chincha & Sombrero Islands. WE WARRANT IT IN EVERY RESPECT.

THE SOMBRERO GUANO. Before being mixed, is rendered immediately solu ble, by the addition of Sulphuric acid. This treatment is universally recommended by the most eminent Agricultural Chemists. Without it, the action of

> the two Guanos when mixed is not simultaneous, and consequently comparatively inefficient.

This is the ONLY mixture of the Ammoniated and Phosphatic GUANOS we know of, yet offered to the Agricultural community, in a REALLY

Price \$50 per Ton of 2,000 lbs. Our reports from those who applied the above FERTILIZER to their crops last fall, are highly satisfactory-so much so, indeed, as to convince us that our Soluble Phosphated Peruvian Guano will ere long be altogether used in this section, as a substitute for the Peruvian Guano, which, without the addition of Phosphates, tends rather to exhaust than permanently improve the soil.

7710 GENTLEMEN IN WANT OF A COUN-1 TRY RESIDENCE.—I wish to sell the tract of land on which I reside, two miles from Alexaning the beautiful residence of George Mason, esq., oins the land of J. W. Graves and others, and containing about 152 ACRES, 120 of which are elegred, the remainder in timber of original growth. The improvements consist of a COTTAGE residence, containing seven rooms, kitchen, servants rooms, wood house, coal house, heneries, smoke house, granary, barn, carriage house, waseers house, all in a good state of preservation. The site on which the dwelling house stands, is unsurpassed for its healthy location, a single instance of illness, arising from Chills, Fevers, either Bilious or Intermittent, never having been known to occur, and affords one of the most beautiful Panoramic views in the State.

In the distance, only seven miles off, the Federal City, in all the splendor of its reminiscences, its Capitol, Navy Yard, Patent Office, Washington Monument, and other public buildings, appear to the eye, in the grandeur of a full and unobstructed lovliness, whilst at your feet, as it were, lays the delightful city of Alexandria, full of untiring energy, enterprise and commerce; whose base is washed by the waters of the noble "Potomac," as it rolls onward enveloped by the hills of Maryland, on one side, and those of Mount Vernon on the other. The whole presenting to the vision a scenie display of gorgeons and unrivaled beauty. The surface of the tract presents a series of

small conical hills of from 30 to 50 feet high, surrounded by gentle slopes of from 5 to 10 acres each affording sites for residences, none of which offer fewer attractions than the one on which the dwelling house stands-these I will sell seperately if the day, desires a retreat to the happiness of a rural home-to the family who prefer a salubrious Summer residence to crowded Watering places-

to the father who desires the removal of his children from the objections a city presents to the young-yet within the reach of its schools. A LEXANDRIA LIBRARY COMPANY .- A Library kept in the south-room, first-story, of the LYCEUM HALL, S. W. corner of Prince and
